

PM&P expands in India

Since the beginning of 2009, PM&P has established a strategic partnership with the Indian company, KAPITAL GLOBAL. The alliance will particularly improve PM&P's presence in India, as well as in other countries in Asia. The cooperation is focusing on regional development and investment promotion projects. PM&P clients will benefit from this partnership with an improved range of services in India and higher intensity of investment promotion measures in the region. In addition, Indian investment promotion agencies will have a local contact for handling their investment promotion projects in Europe.
